**TO THE ELECTORS OF NEW SOUTH WALES.**

Gentlemen,—

As the Candidates proposed by the Australian Labor Association to contest the Senate election in support of the Barton Government, we ask for your aid.

We propose addressing the Electors in every large meeting.

[illegible]

In our opinion this desirable consummation should be attained with as little delay as possible.

The abolition of coloured Areas about so as to secure a white Australia.

The formation of an adequate Defence Force on the basis of citizen soldiers.

The adoption of adult suffrage throughout the Commonwealth and a uniform system of Old Age Pensions and Unemployment benefits.

The maintenance of our sincere regard and support.

The Commonwealth Government should be the Special Constabulary in the Northern Territory.

The establishment in New South Wales and in the Capital of a Department of the Interior.

The guardian of State Rights, we will endeavour at the present juncture to make it plain to the people of the State that the security that the undoubted stability of our Government will ensure shall receive early and general recognition, in the matter of the proposed Bill.

TO THE ELECTORS

NEW SOUTH WALES.

Gentlemen,—

I beg to offer myself as a Candidate for a seat in the SENATE of the COMMONWEALTH PARLIAMENT.

I am a native of NEW SOUTH WALES, and kindly invite to the interests of the STATE, and would request to be untired any attempt to deprive us of our just rights.

DEFENCE.

Recent events have proved that it is quite impossible for any Minister for Defence, with his many political duties and responsibilities, to be thoroughly conversant with the administration of the Military Forces, except

Recently many mistakes have been made and numerous officers created; I desire I wish to see remedied and abolished at the earliest possible moment, and no time is more opportune than the present, when the forces of the different arms, by being so mixed together in our Commonwealth Army, I regret to say that there are already indications of a movement, in at least one of the other bodies, to supersede not only the General and Permanent Staff, but the whole of the New South Wales Forces. Any endeavor in this direction requires to be firmly opposed, I am of opinion that much extravagance has been displayed in the past, and greater efficiency could be gained at less expenditure. I am a strong advocate of the principle of a Per-

ally-riding force, WHEN was inaugurated by General Richardson, an officer who has done so much for New South Wales, and whose system has become a model for the rest of Australia. I have had many years' experience in the Defence Forces, having commanded the Imperial Rifles for a period of nine years, and served in the Imperial Army for 15 years. I am therefore in a position to recognise the weak spots in our system.

TARIFF.

IF I am opposed to the imposition of a TARIFF which would ENRICH luxury-fed manufacturers of the STATE of VICTORIA, preferring duties which would be mainly SEVENTEEN-BLARET, due regard being given to international COMMERCE.

I regret it will be impossible for me to personally visit you to further explain my views, as I am under orders to leave for South Africa.

If elected to the honourable position as one of the representatives of the NEW SOUTH WALES in the Legislative Assembly, my services on my return to Australia at the conclusion of the War will be at your complete disposal.

I have the honour to be,  
Gentlemen,  
Your Obedient Servant,  
H. B. LASSETTER,  
Sydney, March 7, 1901.

**TO** Mr. F. J. GARDON, 28 Hunter-street, Sydney,  
Sydney, February 20, 1901.

Sir—We, the undersigned, Electors of New South Wales, request that you will come to be Nominated as a Candidate to the Commonwealth Senate.

Your extensive knowledge of the political history of

Australia, the activity you have displayed in matters affecting the welfare of this State, and the numerous efforts you have taken, both by word and deed, in connection with Federal matters, fully satisfy that your nomination is the sense of the Commonwealth, where your presence would be given to your acknowledged powers of debate, would be a distinct advantage to New South Wales as well as to the Commonwealth generally.

We trust, therefore, that you will accept of our request and allow yourself to be nominated, in which capacity I pledge ourselves to do our utmost to secure your return as one of the six members allotted to this House.

Yours faithfully,  
(Here follow names 364 electors)

REPLY.

To Messrs. Henry Connel, Thomas Campbell Brown, Robert Cowan, Thomas J. Hughes, John Hughes, John P. Pattison, John Ashton, F. N. Brierley, Robert Rust, A. Miller, C. S. Church, W. H. Elliott, C. O. Laidlaw, J. V. Beaumont, Henry Taylor, G. F. Sale, F. J. Brownell, P. Staples, S. P. Townsend, Fred Stevens, Perry Lyon, and the 243 other gentlemen who have signed the foregoing request:—

My friends, — I am profoundly grateful for the high consideration implied by the foregoing request, and if I have seen slow in deciding as to my course of action it was not because I was inensible to the high and dignified character of the cause.

representing you in the Senate, but because I did not feel justified in submitting myself to the ordeal of a contest against the organisations, associations, etc., so busy at the present time in their efforts to let us chastely assume, (concomitant efforts) to degrade the noblest political work of this or any other time; for such do I regard the great act of union embodied in the Australian Commonwealth, and the selection and support of a national Government, and the creation of the legislative, executive and judicial authorities, and the noble bound the fringe of political life. The great Commonwealth Constitution is a sublime experiment, and a deduction into the category of practical everyday governing machinery must be experimental also. How

Because this legislative experiment is peculiarly the business of men who are informed, not only as to particular issues but as to the essential and general principles which underlie every honest and intelligent attempt to bring about actual fact the teachings of history, and its suggestions of advanced and progressive politics.

Since, however, the question of representation in the Senate has become a party conflict, I must, in loyalty to the great Cause of Commercial Freedom, stand aside and hereafter be said I had made party fealty subservient to personal ambition.

Again thanking you, gentlemen,

I am, yours gr. truly,

the orders that came pouring in. (Applause.) He said he was sorry that he could not get them in the time required, used the words to America; and yet they had been sent to him from all over the world. Mr. Barton was a freetrader, and he gave an explicit statement of the fact, he told us that the policy of protectionism was the policy of destruction. He publicly challenged Mr. Barton to come and make a straight-out-and-out statement as to what was the cause of our present distress. Justice to wage commercial warfare against England. (Loud cheer.)

The numerous friends of Belfast, which is the sister city of Liverpool,

at Colneville Burns said that as far as the Government were concerned they had everything to gain by free trade, and everything to lose by protection.

(Mr. Hester said that freetrade was the policy of the Government.)

He said that there are three men here who will tell you the truth about it. (Cheer.)

They are Mr. J. C. L. Fitzpatrick, M.L.A., Mr. J. W. Wallis, a member of the Council, and Mr. J. F. Wallis, a member of the Council. The resolution was carried unanimously.

**ALBURY, Tuesday.**  
Hoye, a candidate for the Federal Senate, was meeting to-night at the residence of the late Mayor presided. The attendance was the candidates received a good hearing, of thanks for their past services.

**BLAYNEY, Tuesday.**  
Griffin, a candidate for the Senate, addressed meeting in the Town Hall to-night. He advised the audience to vote for the Mayor or Mr. Griffin said that the issue would cause us to rise four times the price of food and fuel and that it would be raised on all things and unprofitable. It appeared would be extremely heavy per head tax on the people. He said that he had no life, as the burden would be heavy on classes. A unanimous vote of confidence

**DUBBO, Tuesday.**  
J. Griffin, a candidate for the Senate, was meeting from 7 to 9 o'clock last Monday evening. The Mayor (Alderman) presided. After references to the Com-

He said that a portion of the sum required would be raised by Customs. A fortnight later, he was informed that the Government had decided to contribute a certain amount. As a first step he thought that the lowest estimate would raise the greatest revenue. He then proceeded to the Government of Kanbasa. His audience was carried.

**LITHGOW, Tuesday.**

D. Milson, M. P., called on me to the School of Arts last night. The student, who was well received, said spoke of the Government of Kanbasa as a candidate for the Senate. At the fall was secured an unanimous vote of only one hand being raised to oppose the candidate.

**OSANGE, Tuesday.**

John Mc'Donnell, father of the candidate, addressed a meeting last night. He commenced a long speech, commenced in a white shirt and in the face, purple with anger, and directed to the individual.

**WEST MATLAND, Tuesday.**

D. McLaughlin, M. P., called on me and addressed large open-air meetings at the last evening. The Mayor (Alderman) was present and the meeting was most interesting.

and were accorded votes of confidence of REPRESENTATIVES.

WITH SYDNEY ELECTORATE.

Mr. John Thomas, M.L.A., the selected candidate for the representation of North Sydney Federal Parliament, addressed a meeting at the Temperance Hall, Liverpool-street, on occupied by the Mayor of Willoughby (W. S. Wille), who briefly introduced the speaker, who had a good reception, and that the unanimous matter of the campaign was the issue. It had been said that he was not a rainier, but he was of opinion that a meeting before the electors had no right to be held on such a subject, and he was not and definitely. (Applause.) It was not a mistake to think the issue, as had already been said, was a matter of the future of the Sydney Harbour.

As a freetrader he was opposed to the duties of the Ministry, and advocated a purely free trade policy, and he was of opinion that he favoured one penny more taxation being levied on the importation of goods.

He absolutely refused. He then went to the meeting of the afternoon, but he said he had no fear that it would let within a reasonable time. If there was no meeting, he would go to the station from the State of New South Wales to the sufficiently strong to prevent other "transacts," said Hulse making the conclusion, he increased upon the necessity of all electors recording their votes at the close of the day.

The termination of his address Mr. Thomas drew a hearty vote of confidence.

Charles M. Clark then said: "I had two meetings in support of the candidature, of which he had an abjective hearing. His first meeting was at the residence of the Mayor, where he being occupied by the Mayor of the Aldermen E. H. Small. Later in the afternoon he addressed the meeting at the residence of the Aldermen H. Ryrie and W. Worthington. Mr. Clark, in the afternoon, addressed the meeting at his residence, and was frequently applauded."

**CLARK FORAN'S CANDIDATURE.**

Mr. F. H. McOWEN, of the Federal Parliament, made a meeting of sisters at Waverley on his return from the United States, and spoke at considerable length upon the subject of the Association Act, and reminded them to be true to the motto which he said that he had written for the great Convention at the invitation of the address. Mr. McOWEN then read the resolution of the vote of confidence in the action of the act, recorded by Mr. F. O'Sullivan, and Mr. W. H. Goucher.

**McOWEN AT MERRIDEN.**

Mr. McOWEN addressed a large meeting of sisters at Merriden on the 10th inst. The town (South Sydney). He expounded his views on the subject of the Association, and was recorded a vote of confidence.

**MR. HOYLE AT WATERLOO.**

Mr. HOYLE, the prominent candidate for South Sydney, addressed a small meeting at the Hotel, Waterloo. He received a pleasant reception, and was given a vote of confidence.

**MR. McLEAN'S CANDIDATURE.**  
 A selected meeting of the friends and supporters of F. M. McLean, who is contesting the Long electorate in the freedmen's district, took place at the Town Hall, Marksville, on Monday night, the 10th inst.  
 Mr. Mayor (Albion) J. P. Percy occupied the chair. Mr. Percy and Mr. A. M. Martin were elected delegates, and Alderman Henry was elected secretary. A large number of resolutions were made to further the candidature of Mr. McLean, and the meeting adjourned through the electrician, E. J. McLean, who was present, to meet on Wednesday, the 12th inst., at 8 o'clock, and, *Newtown*. The meeting closed with thanks to the chairman for presiding.

**MRS. N. E. COHEN'S CANDIDATURE.**  
 At Alderman F. E. Cohen addressed a meeting of electors at the Town Hall, Marksville, on Monday night, the 10th inst., on the subject of electing Mrs. N. E. Cohen, a candidate of the Liberal Union, to the Long constituency. Mr. J. Tansell occupied the chair.

There was a large attendance at the meeting, and the speaker was listened to with much attention. The meeting adjourned to meet on Wednesday, the 12th inst., at 8 o'clock.

The British Government is fortunate in its time of need, when a couple of millions sterling is being borrowed at the rate of 95 on 3 per cent. stock, which may be redeemed from 25 years hence.

ing in prepayment of duties on tea and tobacco. At least, that is the immediate result of the operation. An estimate of the revenue lost in the first seven weeks' ordinary collection, the annual income from tobacco duties being about \$1,000,000. As the year's income from the tea duties is about \$1,500,000, the loss of the first seven weeks' February may be taken to represent prepayment for about two months. Should the war terminate early, as seems not improbable, it may not be necessary to resort to such expedients. But even in the worst case there is a risk of loss to the revenue from the withdrawal. The Chancellor of the Exchequer lately said that the haste to evade taxation may possibly be found to have been counterproductive.

A combination of circumstances in January produced more than the ordinary amount of alterations in the market. The following are the results:

Metals.—Private cables and news from London and the Continent have been very bullish at market rates.

Our cable states that the New York market has been very active, and that the price of gold has advanced by 2½ dollars per ton. The market has been very active, and the price of gold has advanced by 2½ dollars per ton.

collected only a few days later by the news of her Majesty's death. Amid circumstances such as these it was surprising that prices of public securities had fallen so low. The following are the prices of representative stocks showing merely a total depreciation on balance of about 25 mills, the exact figures being as follows:—  
Aggregate value of \$1,000, £31,761,295.00.  
On January 21, 1893, £29,963,222.00, a decrease of £8,573,000. In addition to the adverse influences already referred to, the general depression of the market was caused by a heavy loss in Banknote on January 5, to 5 per cent.; that circumstance, together with the death of Queen Victoria, caused a decline to the lowest point of the market, and a recovery from the lowest points of the month, and the net depreciation in British and Indian funds was comparatively moderate.

It is interesting to mention that the Chamber of Deputies in France had passed a bill to create export bounties on the exportation of wheat, flour, and some other agricultural products under certain conditions, and that the bill had been referred to exporters of wheat, flour, &c., calculated on the customs duties on those articles, and which the exporters might wish to import free of tax, coffee, and certain other articles.

The Customs duties. The Customs Committee in the Senate, which is almost exclusively protectionist, also adopted the bill, but the Financial Committee, which is almost exclusively free-trade, rejected a majority of 11 to 1. The French wheat-growers have a substantial import duty in their favor in their own markets. But it is not very surprising that the French Government should be in the attempt to give them advantages in the foreign markets, which is practically what the home d'importation would give them at the expense of the French consumer generally.

It is interesting to note the international situation in the Argentine Republic, where the

New York dispatch regarding steady market till the new crop or three months ahead. Stocks are being sold by the Government and purchasers bid freely with the ability to sell without making fur loss.

Chemicals.—Regulating the price of chemicals has been discussed here recently somewhat owing and a rather intense feeling exists as to whether it will be done below current quotations or not. Very little shipments have been sent to the Australian ports since the war.

Wool.—The wool season closed last night at Sydney, Clyde, Newcastle, Melbourne, Adelaide, Perth, Fremantle, and other ports.

**BREADSTUFFS.** Wheat ruled steady at 24½c to 24½c for f.o.b. grain. The export trade is being carried on without materialism, but the bulk of the season is expected to be soon over. Flour is sold at \$5.15 to \$5.10, according to parcel and brand.

The receipt of wheat and flour by rail at Sydney, Clyde, Newcastle, and Auckland, Victoria, Melbourne, Newbury, during the week ended March 11, compared with those of the previous week and the corresponding week of last year, are as follows:—

	Wheat	Flour	Wheat	Flour
	Tons	Tons	Tons	Tons

Wales flour placed on the London market. One importer at the other side admits that he is now getting a considerable quantity of the flour from the mills both from millers and bakers, and it is giving satisfaction. Some 20 country millers are now exporting, a considerable quantity of the flour to London, and the millers on the local market at present, when bakers are fully stocked, would have nothing to export. The millers are not at all anxious to export, they have a chance of realising a profit any time during the period occupied in transit, and also receive the local price. The flour is shipped to London in bulk of these stocks. Under such circumstances it is not surprising that millers are showing a disposition to shut away their surplus.

**IMPORT MARKET.**

Trade was as usual interfered with to-day through the outgoing mail requiring attention. Still, a healthy tone prevailed, and prices on the whole were well maintained. This was especially noticeable in the tea market, which continued to be subject to a good deal of speculative business. The fact of some descriptions of tea being sold at 100 per cent. advance on full price, is a sign that would tempt buyers to forego it, only to find more recently been eagerly offered, only to find in many instances, that holders had been obliged to sell at a loss. The tea of the East and Eastern produced sold in trade lots only. Tapioca was cleared firmer from the centre of supply. Ex-

**TRADE IN SUGAR.**

A good turnover was effected in the produce market, and the market was well supplied. Two exports from a fall in straw was

The New York freight market continued firm on February 7. Much less incitement was shown, it is reported, to raise charter rates than in the previous week. The charter market was limited, and selling vessels very difficult to obtain, where would, it was considered, operate against lower rates by rail, while the market for tonnage was not so active. The market for steam. For Sydney and Melbourne steamer rates were quoted at 32 1/2 to 34 for minimum tonnage and 35 to 37 1/2 for maximum tonnage. For London and Liverpool 22 to 24 for 100 tons per ton for measurement and 25 to 26 to 28 for 100 tons per ton for weight. Rates for the Pacific coast were quoted at 25 to 26 for 100 tons per ton for measurement and 27 to 28 for 100 tons per ton for weight.
